

KALEIDO

EXPLORE OUR OPEN POSITION

We are looking for refined, ambitious and skilled talents who will be a team player and help us grow.

ROLE: INTERN FOR INNOVATION & TECHNOLOGY

As a modern boutique private bank, innovation is at the heart of what we do. To scale our business and improve processes, we are looking for an intern to support our innovation efforts with technical skills, software development know-how and a creative approach to solving problems.

Are you the "Digital Swiss Army Knife" that can help us bring new ideas to life at a rapid pace?

WHAT THE JOB IS ALL ABOUT

In line with our strong growth ambitions, we firmly believe in fast prototyping and internal development of effective digital solutions that boost our processes, enhance the client experience, and improve compliance monitoring. To achieve this we build lean, result-focused digital solutions based on modern tools like Microsoft's Power Automate, Power BI, custom python programs, and state-of-the-art business process frameworks such as Camunda or Mendix.

You will be part of a young and dynamic team that is focused on tackling a multitude of complex challenges with a creative mindset – from digitizing our finance processes, scaling our automated reporting services to performing enhanced compliance checks with the help of Machine Learning. There are a variety of topics that you will be involved with, and we are looking forward to starting this journey of mutual growth together with you!

DO YOU HAVE WHAT IT TAKES

Everyone is different, so please consider the list of requirements only as a rough guide to what might be useful skills & know-how to best contribute and develop together with us.

Some useful skills include:

- Interest in private banking and the financial sector
- Results-driven way of working
- Strong analytical skills & way of thinking
- Teamwork-oriented approach to work and willingness to learn
- Programming skills in Python, VBA, SharePoint, DAX, BPF modeling
